

# Summary Grid Positioning

## Applied on the container

Positioning of the grid  
within its container

```
justify-content: center;  
align-content: center;
```

Positioning of all  
elements in the grid

```
justify-items: stretch;  
align-items: stretch;
```

## Applied on the element

Positioning of  
individual element

```
.text2 {  
  background:  rgba(195, 0, 255, 0.5);  
  grid-area: text2;  
  justify-self: end;  
  align-self: start;  
}
```
